STILL IN SUSPENSE

Dewey's Report of Manila Battle Has Not Reached Washington.

NO FEAR FOR HIS SAFETY

Secretary Long Expects News of Complete Victory.

SAMPSON NOT TO MEET OREGON.

Spaniards Would Not Dare Risk Hunting the Battleship—It Is Believed That the Cape Verde Fleet Has Turned Back to Cadiz.

WASHINGTON, May 6.—Secretary Long said at the close of office hours yesterday that up to that time he had received no word from Commodore Dewey. He added, however, that he felt no apprehension over this lack of good news, because in the first place reports were not expected with the cable from Manila cut, and furthermore no fears were entertained as to Commodore Dewey's ability to maintain his position. There was no doubt, the secretary said, that Commodore Dewey's fleet had annihilated the Spanish fleet, and with this much accomplished Dewey was master of the situation at Manila. It was suggested to Mr. Long that the shore batteries at Cavite and on Corregidor island might be a serious menace to the American fleet, but the secretary did not share this view, holding that the strength of the Olympia and other ships in Dewey's command was ample to make him master of Manila bay and its surroundings.

The department is taking steps to render effective aid to the commodore in the matter of supplies, and a constructor of high ability is to go out at once to repair the damages sustained in the battle of Manila. Preparation for a suitable convoy for the supply ships was also indicated by the choice of a commander and officers for the cruiser Charleston, now at Mare Island. It is recalled at the navy department in this connection that having received the surrender of Manila the commodore would be able to secure any quantity of labor and such material as a maritime city like Manila affords for the repair of his ships. He also would be able to place his wounded in comfort in some one of the Manila hospitals or other public buildings. It is always the desire of a prudent naval commander to get his wounded ashore at the earliest possible opportunity, as they stand better chances of recovery.

No news could be gleaned at the navy department relative to the movements of Admiral Sampson's battleships, but from the confident tone of the few officials who are acquainted with the policy of the department they are expecting to hear very soon of news from his squadron almost as interesting and important as that received from the Philippines last Sunday. A high officer of the administration yesterday almost demolished the theory that Admiral Sampson was going to succor the Oregon, now on her way from Brazil to join the north Atlantic squadron. He declared that the navy department was under no apprehension about the Oregon, for the reason that it did not consider that the Spanish admiral of the Cape Verde squadron would be willing to risk a combat with the Oregon even with the great odds in his favor, as even if overwhelmed in the end the Oregon would certainly destroy one of the Spanish ships and perhaps two, and the Spanish government could not afford to exchange pawns at this stage of the war. That left open as possible points of operations for Samps n eith r Puerto Rico or some port on the Cub n coast But just which theory is to be accepted is not even hinted at by the departmental officials.

Notice came to the state department from Brazil yesterday that that government had declared neutral ty. There is now no cause to regret such action on the part of Brazil, for, however b neficial the delay has been to the United States in getting its warships safely along the Brazilian coast, the issue of the proclamation just now is likely to be still more beneficial in closing Brazilian ports to the Spanish flying squadron if it should be headed in that direction. It may be noted, however, that while the first reports were received with little credit the advices coming to the navy department yesterday, though not conclusive, inclined the officers to the belief that the Spanish flying squadron really has turned back from Cape Verde to consolidate with the home squadron at Cadiz.

Great pressure is being brought to bear upon the war department to secure appointments to second lieutenancies authorized by the recently enacted Hull bill. The list of applicants includes many bright young men, for the regulation requires them to be under 30. Among them are former students at West Point, newspaper men and others with political influence back of them.

The navy department will ship 200,000 pounds of powder to Commodore Dewey to add to the stock he now has left. This will be made up of about 60,000 pounds of the grade used for 8 inch guns, 60,000 pounds for the 6 inch guns, 50,000 pounds for the 5 inch guns and lesser amounts for other classes of guns. This, with the large number of 8 inch armor piercing projectiles, shells and 8 inch and 5 inch rifle balls, will make the shipment of ammunition a very large one. The powder and shot together will give 500 rounds for the big guns and several thousand rounds for the rapid fire rifles.

ROBLEDO CRITICISES.

Thinks Montojo Didn't Know His Business. Spain Will Bombard California.

MADRID, May 6.—The debate on the government's policy was resumed in the congress yesterday, the sitting being mainly occupied with the continuation of Senor Romero y Robledo's speech. He severely criticised the government for its lack of foresight, and after putting various questions to members of the cabinet as to the government plans, he announced that he would ask the cortes to vote an income tax.

Senor Romero y Robledo asked why, after issuing from the bay, Admiral Montojo returned to Cavite, "thus becoming a simple target for the enemy."

Admiral Bermejo, minister of marine, replied that Admiral Montojo acted entirely at his own discretion, no instructions having been sent him.

Admiral Bermejo declined to answer a question as to the whereabouts of the Cape Verde squadron.

Senor Gullon, minister of foreign affairs, vigorously defended the government's action.

It is alleged that the governments of Cuba and Puerto Rico having cabled that there is no need to fear a landing of American troops in those islands, two ironclads, two cruisers and three transports will leave Cadiz forthwith to chase the Yankees from the Philippines and then bombard Californian ports.

At a cabinet council yesterday, over which the queen regent presided, the premier, Senor Sagasta, explained the war situation and announced the safe arrival at Puerto Rico of the Spanish Transatlantic company's steamer Alfonso XIII, having on board, it is said, re-enforcements of troops and a very valuable cargo, including ammunition and supplies.

The premier also announced the opening of the Cuban parliament, and the queen regent signed the war resources bill.

The cabinet afterward held another meeting and deliberated upon the financial situation and the measures taken and contemplated to preserve public order in the localities where disturbances have occurred.

IN THE SENATE.

Postoffice Appropriation Bill Has the Floor—Arms and Food For Cubans.

WASHINGTON, May 6.—During almost the entire session yesterday the senate had under consideration the postoffice appropriation bill. The measure carries $99 224,300, being very much the heaviest of all the appropriation bills. The most important action taken upon the measure was the adoption of an amendment offered by Mr. Tillman of South Carolina reducing the number of deliveries of mail in all cities of the country to a number not exceeding four each day. The amendment was sharply antagonized as a blow to business interests in the large cities, but the feeling of the senate was such that, despite the vigorous opposition, it prevailed by a decisive majority.

A lively debate was precipitated by an amendment of the committee striking out the appropriation of $300,000 for rural free delivery. The proposition was discussed for nearly two hours, Mr. Chandler of New Hampshire and Mr. Butler of North Carolina leading the fight in favor of rural delivery. By the close vote of 25 to 22, however, the committee was sustained, and the bill now carries no appropriation for such delivery.

An important amendment to the bill was one which will prevent star route contractors from subletting their contracts. In order to get their money they must be able to swear that they performed the service themselves.

Just before adjournment the senate passed an important war measure authorizing the president and general officers of the army to supply the Cuban insurgents with arms and munitions of war and empowering officers of the army serving in Cuba to supply the needy inhabitants of the island with medicines and subsistence.

The senate adopted a committee report providing that in future no additional contracts shall be made by the postoffice department for pneumatic mail tube service unless authorized by law.

House Passes Two Bills.

WASHINGTON, May 6.—The house yesterday disposed of two important measures. The Alaska land bill, extending the homestead laws to and providing for certain railway rights of way in the district of Alaska, as amended by the senate and agreed upon in conference, was passed. The labor arbitration measure providing for the arbitration of labor disputes between employees and certain common carriers, a bill which had received very wide indorsement by labor organizations throughout the country, received the approval of the house.

A number of minor bills were also passed. The house adjourned until Monday.

A Cruiser For Dewey.

WASHINGTON, May 6.—Captain H. Glass has been detached from the navy yard at Mare Island, where he was in command of the Pensacola, and assigned to command immediately the Charleston. This cruiser is expected to convoy the relief expedition to Commodore Dewey at Manila.

AUSTRIA EXPECTS MARIA.

Apartments In a Vienna Hotel Reserved For the Queen Regent.

LONDON, May 6.—The Vienna correspondent of The Daily Telegraph says:

"Apartments have been reserved at a hotel here for the queen regent of Spain in case she arrives before apartments have been prepared for her in her brother's palace.

"Telegrams from the Austrian embassador at Madrid, Count Dubsky, indicate that the queen regent is only waiting for a suitable moment to quit Spain without detriment to the interests of her son."

A dispatch to The Daily Chronicle from Cadiz, dated Tuesday, says:

"The battleship Pelayo and the cruiser Alfonso XIII have left their anchorage in the bay and gone to the dockyard. The cruisers Patriota and Rapido are preparing with all speed, and all are expected to sail together. Cadiz is overwhelmed by the news of the Philippine disaster, the lost crews numbering many Cadizians."

AT CAMP BLACK.

Nearly Ten Thousand Men Tenting at Hempstead.

NEW YORK, May 6.—The strict discipline put in force by Major General Roe at Camp Black, Hempstead, after he was informed of the escapades of some of the soldiers in the nearby villages has apparently had the desired effect. The number of men outside the camp Wednesday night was much less than on the two previous nights. There was a strict guard about the camp, and it was necessary to have a pass to go beyond the lines. A guard patrolled the villages of Hempstead, Garden City and Westbury under orders from Colonel Sanger, provost marshal, and a few soldiers caught in the villages without passes were put under arrest and taken back to camp.

The Hempstead Water company yesterday succeeded in laying all the mains throughout the camp grounds necessary to give the men an ample supply of water. The official report of the number of men in camp was made yesterday. On Tuesday, when the count was taken, 7,836 privates and 323 officers were counted. But five men needed attention from the hospital corps yesterday. These men were treated at the Nassau hospital in Hempstead village, as there is no camp hospital established yet.

It was reported at Camp Black yesterday afternoon that the object of a visit from Colonel Hale of the United States army was to report to General Miles whether the camp could accommodate any more troops. In accordance with orders issued by the war department a short time ago it is proposed to mobilize troops from several states at two points, where they could be easily called if wanted for immediate service.

Governor Black has been informed by General Roe that 60 per cent of the privates of the Thirteenth regiment of Brooklyn are willing to enlist as volunteers.

AT CAMP TOWNSEND.

Physical Examination of Volunteers Begins Today.

NEW YORK, May 6.—Major L. M. Moas of Fort Hamilton, Dr. Charles E. Jones of Albany and Dr. C. E. Nichols of Troy, the United States examining board, yesterday afternoon began their examination of the nine surgeons at Camp Townsend, Peekskill. The surgeons were examined as to their qualifications, and all passed.

This morning the surgeons commenced the individual examination of the volunteers. This is expected to take ten days. The surgeons expect to get through with about 300 men a day.

A band of 30 pieces arrived at the camp yesterday afternoon and will furnish music from now on.

Major H. Coles Wadsworth, the commissary of the staff of Brigadier General Doyle, the commandant of Camp Townsend, took the place of Major Roessle of General Oliver's staff, who has gone to Hempstead.

Lieutenant Granger Adams of the Fifth United States artillery, who represents the United States government at the camp as quartermaster and commissary, yesterday made a requisition on the government for 1,000 pairs of shoes for each regiment, three pairs of socks for each soldier in the camp and 2,000 blue shirts for each regiment. The government will supply the above, while the state of New York will have to furnish the soldiers with blankets, packs, ponchos, leggings, overcoats, blouses, trousers, caps, campaign hats, rifles and cartridges.

Adjutant General Tillinghast is expected to visit Camp Townsend today.

General Wheeler Reports.

WASHINGTON, May 6.—"Fighting Joe" Wheeler, who on Wednesday was nominated to the position of major general in the volunteer army, reported at army headquarters yesterday. He was the first of the major generals to signify to Secretary Alger his readiness for active duty. The president, however, has not determined finally upon the organization of the volunteer army, and in the absence of any action in this direction it is not likely that any designations will be positively made. The probability, however, is that General Wheeler and General Fitz Hugh Lee will receive commands in the section of the country from which they come. General Wheeler has not yet determined whether he will resign his seat as a representative in congress from the state of Alabama. This will depend upon the duration of the war.

Postmasters Appointed.

WASHINGTON, May 6.—The following fourth class postmasters have been appointed. New York—Diana, Daniel Smith; Hinmansville, Cyrus S. Fralick. Pennsylvania—Archibald, C. C. Batenburg; Coverdale, R. H. Menard; Hazeldell, Winter Trish. Lorah, Isaac C. Greth; Montdale, Willard Hunt.

A BATTLE IN CUBA.

Landing Expedition Attacked by Spanish Cavalry.

THE LEYDEN'S WOODEN CANNON.

Tug Mounted Timber Guns—Spanish Repulsed by Insurgents and by Shots From the Wilmington—Arms and Ammunition Landed.

KEY WEST, May 6.—The government tug Leyden, Captain J. H. Angus, steamed into port yesterday and told the following story of a desperate encounter with Spanish troops on the northern coast of Cuba: The Leyden left here Monday afternoon with a party of insurgents under General Baldamero Acosta and including five Cuban scouts under the leadership of Captain J. H. Dorst of the United States cavalry. The Leyden also carried a large quantity of arms and ammunition. The tug proceeded to a certain spot and landed five men, with four boxes of ammunition and two horses. General Acosta also landed and penetrated to the interior, where he communicated with the forces of the insurgents. The Leyden lay to outside the harbor until 5 o'clock in the morning, when, observing a troop of Spanish cavalry approaching, she put to sea and got safely away. The same night she proceeded to Matanzas and Tuesday afternoon landed another small party near there. Fearing attack by the Spaniards, she looked for the monitors Terror and Amphitrite, which are on the blockade in that vicinity, but, being unable to locate them, the Leyden returned to the original place, reaching there early Wednesday morning. Here she was met by Acosta and about 200 Cubans, half of whom were armed with rifles. They united with the men on the tug, and an attempt was made to land the remaining arms and men, when a troop of 200 of the Villa Vicosa cavalry swooped down on them, and a fierce engagement of half an hour's duration followed.

When the Spanish cavalry discovered the Leyden, they promptly opened fire. The tug was taken at a disadvantage, having no cannon aboard, but Commander Angus decided upon a desperate bluff. He mounted an old flagpole and another round piece of timber in the bow of the boat and stationed "gunners" there, but the ruse was of little avail. The Spaniards took shelter near the blockhouse and poured in a fusillade of bullets. Meanwhile the Cubans attempted to draw the Spanish fire, with a view of diverting the cavalry and giving the Leyden a chance to slip out.

The Cubans finally repulsed the enemy, driving them into the woods. During this engagement several rifle bullets went through the Leyden's smokestack, but no one was injured. The plucky little tug then went in search of the flagship, found her lying near Havana and reported the story. Rear Admiral Sampson sent the gunboat Wilmington back with the Leyden. The two vessels reached the scene of the landing Wednesday afternoon and found the Spanish cavalry in waiting to welcome another attempted invasion.

The Wilmington lost no time in preliminaries, but promptly opened fire on a number of small houses marking the entrance to the place. The gunboat fired four shots, which immediately drove back the Spaniards, and Captain Dorst, with the ammunition, landed safely Wednesday night, the Leyden returning here.

The Leyden did not leave, however, until she had taken General Acosta aboard. He reported that he had reached his destination and made an exchange of valuable information concerning future movements.

The loss of life in the engagement, if any, was on the Spanish side Thanks to poor marksmanship, not an American or Cuban was lost, and the only battle scars are the bullet holes in the Leyden's smokestack.

News reached here yesterday of the arrival at Havana Wednesday of the British cruiser Talbot to take off British subjects who desire to leave the city. The Talbot was "held up" by the blockading vessels, but finally asked permission of the flagship to go in, which Rear Admiral Sampson readily granted. Admiral Sir John Richardson, commanding the British West Indian naval station, was on board the Talbot. The Britishers had not heard the news of the Manila victory, and when they learned of it they heartily congratulated Admiral Sampson and the other officers of the fleet.

Further information from the besieged island is to the effect that General Blanco is urging the provincial authorities in every locality to stir up the patriotism of the people, which is said to be rapidly waning under the influence of hunger and disease.

The Spanish soldiers captured on the prize steamer Argonauta last week were sent north yesterday morning on the City of Key West. They will be lodged in Fort McPherson as prisoners of war until the government decides what shall be done with them. The prisoners are Colonel Vincente de Cortijo of the Third Cavalry of Puerto Principe First Lieutenant Lucas Saeyez of the Sixth battalion, lower peninsula; Surgeon Major Sinclon Garcia Julien and Second Lieutenant Luis Guion Tourmolle, with Emilio Cabezá, Baldamero Aparicio Zambrana and Juan Gonzalez Vergas, one sergeant and nine privates. Under the escort of ten members of the Twenty-fifth infantry, commanded by Lieutenant Moss, the Spaniards were landed on the dock, where they were surrounded by a crowd of Cubans and Americans, who, however, offered no indignities. There they waited for more than an hour for the arrival of the delayed steamer. The infantry detail accompanies them to Fort McPherson.

Other members of Companies A and C of the Twenty-fifth infantry (colored) went on government tugs yesterday to the Tortugas, where they will be stationed until further orders.

Five members of the naval reserve arrived yesterday on the steamer Tarpon and a body of army engineers from Willet's Point on the Mallory liner Alamo.

The monitor Miantonomoh has arrived from Philadelphia.

A naval officer of high rank said last night that the division of Admiral Sampson's squadron, already indicated from Washington will in all probability go into effect forthwith

Commodore Watson will raise his flag on the cruiser Cincinnati and his command will include other cruisers and gunboats.

Commodore Remey, who will command the other division of the fleet, Rear Admiral Sampson being commander in chief of both divisions, is expected here in a few days.

The conditions of the Havana blockade remain unchanged, the line being rigidly kept by the Montgomery and other cruisers under Captain Converse, who is still in temporary command.

The censorship of dispatches here continues very strict.

Captain Lyons of the gunboat Dolphin, which has been cruising for 11 days along the western coast of Cuba, says there is great activity on shore throughout that section and especially in Bahia Honda. Groups of Spaniards can be seen working on improvised fortifications of all kinds. Earthworks have been thrown up all along the coast, and apparent preparations against invasion are being made.

During her cruise the Dolphin held up 18 vessels, all of which were released except the Spanish fishing schooner Lolo, which was sent in here the other day. The Dolphin had previously taken the Lolo, but had released her on her captain's promise to go in shore and remain there.

Not long afterward the Dolphin again found the Lolo cruising and apparently signaling information to some one on shore. The Spaniard was then captured, despite the captain's protestations that he was not signaling.

A dispatch boat which arrived here yesterday brought intelligence of an engagement between Spanish troops and insurgents in Havana province, in which Colonel Juan Delgado, the insurgent leader, and four men were killed, and the Spanish lost 21.

No further details are known, and even these are obtained from hearsay in Havana. Even the date of the engagement is not given, although it is understood of recent occurrence.

JERSEY TROOPS EXAMINED.

Three Companies Already Mustered Into the Service.

SEA GIRT, N. J., May 6.—Captain W. A. Gurgas, the regular army surgeon, and his assistants, Captain Henry Allen of the First regiment and Lieutenants English and Hasbourne, the battalion surgeons, continued the physical examinations of the men at Camp Voorhees yesterday. The men of Companies B, C and D of the First regiment have been examined, and but a very small percentage has been rejected.

Captain Butler, the United States mustering officer, announced yesterday that he would muster the men into service by companies as soon as the surgeons got a little further advanced. There are now three companies in the camp that have been mustered in. Company B of the First regiment enjoys the honor of being the first company from New Jersey to be sworn in. This ceremony took place yesterday. Companies C and D were next sworn in. At the present rate of progress it will take until late tomorrow for the examination of the First regiment.

The first consignment of material to be supplied directly by the government arrived at camp yesterday.

Rev. J. Madison Hare, chaplain of the Sixth regiment, has been assigned to duty in that capacity with the First regiment, vice Chaplain Keller, detained from duty by illness.

The regimental officers will not be commissioned until they are mustered into the service according to seniority. Colonel Campbell of the First regiment is the ranking officer. Colonel Lee of the Third is next to him and Colonel Hine is the junior colonel.

State Volunteer Officers Commissioned.

ALBANY, May 6.—Governor Black, through Adjutant General Tillinghast, issued these commissions yesterday afternoon: As majors, Captain William Wilson of the Thirty-fourth Separate company of Geneva and Captain M. B. Butler of the Forty-second Separate company of Niagara Falls; as surgeon, W. J. Bolger, an assistant surgeon of the Fourth Separate company of Oswego; as assistant surgeons, A. F. Hodgman of the Second Separate company of Auburn and R. B. Howland of the Thirtieth Separate company of Elmira, all of whom are to serve with the Third Volunteer regiment at Hempstead plains. General Tillinghast has designated First Lieutenant John Archibold to recruit a new company to be known as the One Hundred and Seventh Separate company of Cohoes, in place of the Seventh Separate company, which volunteered.

Pennsylvania's Soldiers.

HARRISBURG, May 6.—General orders were issued yesterday afternoon from national guard headquarters designating the formation of the 15 regiments of the Pennsylvania division for muster into the United States service as agreed upon at a conference in Washington Wednesday between Adjutant General Stewart and Secretary of War Alger. The organizations remain as they are now constituted, except the Sixth regiment, which has been increased to 12 companies by the addition of the State Fencibles battalion. The method of securing and receiving recruits will be announced in future orders. All enlisted men in the guard who enter the United States service will receive honorable discharges.

More Cuban Refugees.

PHILADELPHIA, May 6.—The British freight steamship Lucilene, Captain Tucker, arrived here yesterday afternoon from the blockaded city of Havana with 112 Cuban refugees on board. The Lucilene brings a full cargo of molasses and sugar. She left Havana April 25, three days after the blockade was initiated. Many of the refugees are prominent Cubans, and among them are lawyers, doctors, bankers and planters. Some of them are said to have been millionaires before the insurrection started in Cuba The Danish consul at Havana and the former mayor of San Nicholas, Cuba, were among the refugees.

"Cottonseed oil has a direct dietetic value; it aids both digestion and assimilation.....Cottolene, a thoroughly wholesome combination of fresh beef suet and pure cottonseed oil is eminently worthy to supersede lard for culinary use."

"Vegetable oils (such as cottonseed oil) are growing fast in favor with educated housewives and intelligent cooks.....
The desirable substitute (Cottolene) is purer, more healthful and economical than lard, which it has supplanted."

DON'T GET EXCITED. It is to be borne in mind that Spain is such a little thing. She could be picked up and laid out in Texas and Texas still have 76,686 square miles of territory to spare. Four of our states taken together have a greater population than Spain has; and, then, our people are far more intelligent too. Only one nation in Europe is lower in the scale of general enlightenment than Spain. Sixty-eight per cent. of her population can neither read or write, and her credit is as bad as can be. The biggest thing in Spain is her national debt.

WILLIAMS MFG. CO., Props., Cleveland, O.

THE JOHN GLYNN INQUEST

THREE HOURS' SESSION ALMOST ENDED IN A ROW.

A "Crowner's Quest," the Like of Which Was Never Seen in This City—Jury Wanted to Hear More Evidence but the Coroner Thought They Had Heard Enough—Jurymen Wanted Another Coroner—An Adjournment Finally Taken Till To-day.

The inquest into the death of little John Glynn, which was commenced at the Commercial House, Thursday afternoon, at 4 o'clock, broke up almost in a row at 7 p. m., when a demand was made from the jury for a new coroner.

"Don't get rattled! Don't act crazy!" was heard passed between the jurymen and the coroner, and then from the latter:

"A motion to adjourn is entirely out of order. You shall not have another coroner. You'll have me. I won't adjourn. Don't think I'm any fool. I don't know what you're driving at and I don't care."

Juror John Durham was heard to say: "Don't you think we're kids, either!" and Juror Thomas Donovan said: "We've asked for witnesses and we want them."

The coroner—"You can't have them. This case is closed."

"Then we'll have another coroner," said another juror.

"You won't, either, but I'll adjourn this case. I'll get all the witnesses you want. I don't want to do anything irregular."

Then he adjourned the inquest until 2 o'clock, to-day.

The case was opened all properly and in a dignified manner, the coroner's son acting as clerk. Geo. W. Frank and Ira Gardner were sworn and told their story as already given in the ARGUS, and then the coroner dismissed half a dozen other boys who were witnesses, though Thomas Nally's testimony was asked for by Juror Brinkerhoff.

It came out at this juncture that H. B. Royce, who was present, had previously seen all of the witnesses and secured affidavits from them in behalf of the Electric Mutual and Casualty Association in which the Traction Company is insured against all accidents, etc. The coroner then administered the oath to him, and asked him to read the sworn statements he had with him, to the jury. This very unusual procedure was preceded by Mr. Royce's explanation of what the Association is for.

"Do you mean that when the road kills anybody this association settles?" asked the coroner.

"No, they simply insure against all liability."

He explained that W. B. & H. B. Royce were the attorneys for this association and that he had secured these statements for it.

Before he could read his affidavits Dr. Fancher appeared, was in a hurry to get away, and he took the stand and told what injuries the poor boy had received, and expressed the opinion that the boy died of internal injuries. He had attempted to resuscitate him in the ambulance by artificial respiration, but found the lungs filled with blood.

Supt. Rock, of the Traction Company, wanted to see the coroner in the hall for a moment, and the latter was heard to say: "You wait till I get through. You stay around here and hear what I've got to say."

Thomas Boyd was next called. He saw the boy and car just before the accident, but a wagon shut out his view of the occurrence. He responded to the coroner's question as to responsibility: "I do not think the company was to blame."

When asked if the cars have fenders, he answered: "I suppose they call them fenders." He thought the car was running five or six miles an hour. The coroner then said: "It seems funny that this attorney should ask people to swear to things before I hold my inquest. I think Mr. Royce took advantage of me. In future I would advise witnesses to tell lawyers who question them to mind their own business."

"That affidavit business puzzles me, too," said Capt. Veber.

The reading of the affidavits was forgotten, and then Fred B. Wood, the motorman who was running the car as a "new man," in charge of motorman James Anderson, was called. He said he was running six miles an hour when he rounded the curve under the bridge, and had just rung his gong. He saw two boys standing on the curbstone. He pushed his controller around to the full speed notch, and was just getting nicely under headway when one boy ran between the tracks directly in front of him. He rang the gong once and reversed his controller, but struck the boy. His car ran thirty-five feet over the slippery rails. There was a fender on the car to push obstructions out of the way, but it went over the boy. Several questions were asked him about a previous attempt to break in on the trolley line a few years ago, when the coroner arose and said:

"I'm not a railroad coroner. I pay my fare wherever I go. I don't believe in this always making a railroad responsible. I don't believe this jury will bring in any such verdict. We've got a trolley railroad in Port Jervis, but we haven't had any accidents there yet. Business isn't very good there for coroners. I've run a car there myself,—not employed by the road, but just to try it and I don't believe this road was responsible for this accident. I think Mr. Royce was out of place in this matter. I think he got a little too fresh and I've got to call him down. He had no right to take the affidavits of my witnesses. I think, though, that this case was one of those accidents which will happen."

This nearly put the audience into a trance, and the coroner at once proceeded to leave the case in the hands of the jury. Capt. Veber, however, asked that ex-Supt. Urban be called. The latter testified as to Mr. Wood's capability in words which did not suit the coroner, who again took the floor and addressed the jury:

"We don't want anybody to be censured if he's all right. I don't want anybody roasted. Nobody can be roasted where I am. Mr. Urban, you've left the Traction Company's employ. Did you resign?"

"Yes, sir!"

"Were you asked to resign?"

"No, sir; I resigned of my own free will the day after the road changed hands."

The coroner then ejaculated: "Most everybody who resigns has to. Did you ever see this man drunk or making a noise?—I would if I was drunk." No answer was given. The coroner then continued:

"This evidence has sort of changed my mind from what I've just said about the road's responsibility but I believe it is spite evidence. I don't want to keep no man from earning a living. I have no spite against any one earning a living. I know, gentlemen of the jury, that you don't think this man was killed by any fault of this company. The evidence of this man is given for spite. I believe this motorman is a careful man who has been libeled. I don't think he's to blame; I don't think you think so. I believe that you'll bear me out in your verdict."

Juror Thos. Donovan—"I think we should get the evidence of the competent motorman who was on the car."

The coroner—"No, sir; I don't think so."

Thomas Watts, who had come in just in time to hear the Urban incident, asked to address the jury, as the father of the boy had spoken to him regarding the case, and "inasmuch as the coroner has summed up the case in behalf of the Traction Company."

The coroner broke in: "That isn't so."

Mr. Watts—"I think the coroner's detrimental remarks about our esteemed friend, Mr. Urban, are an insult to all of you. He is a well known gentleman, who is respected by every one. I criticise this coroner's attempt to characterize Mr. Urban and elevate this man. If this man had been competent this accident never would have happened. It is your duty to put the blame where it belongs; to brand the company as a careless, negligent organization if the evidence warrants it. If the motorman was negligent, you should hold him responsible. If he was incompetent, then you should hold the superintendent who employed him. It is your duty to disregard the eloquent appeal of the coroner in behalf of the railroad company. It is something never before witnessed in this county that a coroner should address a jury in behalf of any one when an inquest is being held."

The coroner—"You haven't been all over the county. We do it in Port Jervis."

Mr. Watts—"Then you overstep your authority."

Mr. Royce—"I object. I want it put on the minutes that I object."

The coroner then told his son to put down Mr. Royce's objection.

Mr. Watts—"Give him an exception, so that he can appeal."

Mr. Royce—"I can do this without your assistance, Mr. Watts."

Then Mr. Royce grasped the coroner by the arm and said: "What did you let Watts say anything to the jury for?"

The coroner—"He asked so polite, and I wanted to be fair."

The coroner then continued:

"It is not so that I insulted Mr. Urban. But I don't want to pound a man when he is down."

Then to the clerk:

"You needn't put that exception down. No exception can be taken at a coroner's inquest."

He then told all to leave the room save the jury, unless the jurymen wanted the clerk to remain. The clerk remained and when told by a juror that he was not wanted replied:

"I'm a juryman."

The jury left alone were agreed, save for the clerk juror, that they could not give a verdict after the way the case was conducted and that which followed is told at the beginning of this report of an occurrence which will go down in history as something unique in the history of coroner's inquests.

EASILY DECIDED.

When the Proof Comes from People we Know in Middletown.

There is something always associated with the emphasized opinion of people we know in Middletown that is lacking when the expressed views of a resident of another city are contrasted or compared. If we do not agree with the former they can be hunted up and contradicted or there can be gathered from them "the reasons for the hope that is in them." We can't do this with an outsider, except by a cumbersome roundabout method which had every chance in the world to end disatisfactorily. In the realm of advertising patent medicines this is very apparent for there are two kinds of evidence appearing side by side in Middletown papers. One from local endorsers, the other from faraway testators. It ought to be simple to decide which can be depended on the more. Read this case and make a decision.

Mr. W. H. Sutton, No. 56 North St., who has charge of the upholsting department of the O. and W., R. R., says: "My health has always been good with the exception of kidney complaint which caused me more or less trouble for two and a half or three years. Sometimes the pain in my loins was so bad I could not do anything. Every morning when I tried to get up my back was lame or stiff or sore, I do not know what caused it, but I do know that when I caught cold it was always worse. I tried, amongst other things for it, Doan's Kidney Pills, getting them at J. E. Mills drug store. In a very short time all traces of my complaint disappeared and I have not been troubled since. I think Doan's Kidney Pills a wonder."

Doan's Kidney Pills are sold for 50 cents per box or six boxes for $2.50 Foster Milburn Co., Buffalo, N. Y., sole agents for the United States. Sent by mail on receipt of price. For sale by all dealers.

Remember the name, Doan's, and take no substitute.

Relief in Six Hours.

Distressing Kidney and Bladder disease relieved in six hours by "NEW GREAT SOUTH AMERICAN KIDNEY CURE." It is a great surprise on account of its exceeding promptness in relieving pain in bladder, ~~kidneys and back, in male or female.~~ Relieves retention of water almost immediately. If you want quick relief and cure this is the remedy. Sold by J. E. Mills, druggist Middletown, N. Y.

No substitute or cure-all in Dr. Miles' Pain Pills. "Cure and Pain Gone."

"There's the rub." (Hamlet.)

The "rub" in one hand, and the effect of it in the other. Good design for a soap "ad."—isn't it? Question of health, if nothing else, ought to make you give up this wearing washboard rubbing with soap, and take up the sensible way of washing with Pearline—soaking, boiling, rinsing. The washboard rubbing, done in the midst of soiled clothes and tainted steam is harmful to any woman. If you think it isn't, you'd better think again. 570

To add to Spain's troubles, scarcity of food is reported in many parts of the country. The only remedy is a reduction of import duties and that means a loss of revenue which the government can ill afford, for every dollar that can be raked and scraped is needed for war expenses, and at the best it is scarcely possible to get enough together to equip the fleets.

"Death to the thieves" and "Down with the taxes," the rallying cries of the rioters in Spain, show that the uprisings of the people have their origin in their knowledge that official corruption has left Spain in no condition for the successful conduct of the war. Spanish pride could bear the humiliation of inevitable defeat, but the hot blood of the Spaniard rises when he knows that defeat has been invited through the malfeasance of her rulers. Realizing their helplessness, and the impossibility of bettering things by peaceful means, many of the Spanish people have started out in blind rage to smash things.

Republican papers of the malevolent sort have bitterly assailed the Democrats in Congress because they have not sacrificed all their political convictions and blindly assented to every section of the war revenue bill. It should be remembered that party lines were drawn on the measure by the Republican leaders who excluded Democrats from all consultations on the bill. The issue having thus been made it was but natural that Democrats should assert their rights and put themselves on record as against such parts of the bill as did not meet with their approval. The attitude of the Democrats ever since the Spanish crisis became imminent has been most admirable. They have given the administration hearty support and will continue to do so, but when it comes to legislation involving economic questions and issues on which there are radical differences of opinion it is not to be expected that they will sacrifice their convictions and vote for measures which they believe to be inherently unjust and altogether vicious.

TO RECRUIT THE 124TH CO.

Lieut. J. D. Stivers Assigned to That Duty—A Meeting at the Armory, To-night.

Lieutenant J. D. Stivers received, to-day, the following order from Adjutant General Tillinghast:

So much of paragraph 1, special order, No. 76, as directs Second Lieutenant George E. Wallace to recruit a company to replace the 24th Separate Company is amended so as to read that First Lieutenant J. D. Stivers, Quartermaster 12th Battalion, is directed to perform this duty.

A meeting will be held at the Armory, at 8 o'clock, this evening, and all who want to join the 124th Company are requested to be present and hand in their names.

All members of the 24th who did not volunteer are to be used as a nucleus of the new company and when it is recruited to the minimum strength, fifty men, the fact will be reported to headquarters and arrangements will be made for inspecting and mustering in the new company and for the election of its officers.

Able-bodied men between the ages of eighteen and forty-five years, who are free from physical defects and blemishes, are eligible for membership in the new company. The term of enlistment will be for five years, but the company will be disbanded on the return of the 24th.

A Farmer's Mishap—Flag Raising at the Depot—A Dance—Sons of Veterans' Public Meeting—Preparing for Band Concerts.

From Our Regular Correspondent.

—C. J. Howell, a farmer, residing near Florida, was engaged in loading milk cans at Howell's creamery, yesterday, when his horses started up. Mr. Howell was standing between the front and rear wheels at the time, and in his effort to check the horses was knocked down, the rear wheel passing over his body. He was not seriously hurt. George Space sprinted after the runaway horses, and overtaking the wagon stepped in over the tail-board and brought the team to a standstill.

—The air was filled with patriotism and gunpowder, last night, at the flag raising at the depot. The rain could not dampen one, and the other was thoughtfully taken in out of the wet. A large and handsome American flag was run up on a flag-staff at the eastern end of the depot. It was purchased with the subscriptions of Messrs. Van Vliet, Zinn, Hawkins, Eckels, Tuthill, Dusenberry and other employes at the depot. Long may it wave.

—Don't forget Prof. Van Dyke's Maypole dance and jubilee, Tuesday night.

—A dance was given at Samuels' Hall, last night, by a number of young people.

—It is desired by the Sons of Veterans that there be a large attendance at their public meeting, Monday night. Those who wish to volunteer may do so. If all those who have from time to time during several months past expressed their anxiety or willingness to enlist will attend, and half of them volunteer, we will send a good-sized company.

—The open air band concert season opens in about a month. The band meets weekly for practice.

—Cataract E. and H. Co. meets in monthly session, to-night.

THE GLYNN INQUEST RESUMED.

Testimony Being Taken at the Commercial House, This Afternoon.

The inquest into the cause of Johnnie Glynn's death was resumed before Coroner Harding and his jury at the Commercial House, this afternoon. The proceedings were marked by none of the eccentricities that made yesterday's hearing unique.

The first witness was Motorman Anderson, who was "breaking in" Fred Wood. He testified that the car was running seven miles an hour, that the gong was rung, that the boy was twelve or fifteen feet from the car when he first saw him, and that Wood did all that any one could have done. Wood had learned the motor, and witness would have reported him as competent the next day. The car was stopped in thirty-five feet.

C. M. Dennison, O. and W. agent at Main street, testified that he was near the scene when the accident occurred. Heard boys shouting and saw Glynn standing on the track as if rigid. The motorman had both hands up as if to raise or lower window and his hands were still raised when the boy was struck. Did not hear the gong. Have no hard feelings against Wood. I only saw one man in the vestibule of the car. Did not hear any buzzing sound such as would naturally result from the car being reversed. Do not think it was Anderson who had his hands raised.

James Anderson recalled. When the boy was struck Wood had his left hand on the controller and his right on the brake. When a man reverses a car he lets go the brake. Reversing a car makes a rumbling noise.

Fred Wood recalled. Did not have my hands up, and was not trying to raise the window. Had my hands on controller and brake.

Andrew Ketcham, hostler at Ayres' stable. Saw boys playing ball and saw car just as it struck boy. Did not hear the bell.

The case was given to the jury at 4:40 o'clock.

FUNERAL OF JOHNNIE GLYNN.

A Very Large Attendance at St. Joseph's Church, This Morning—Many Floral Tributes.

The funeral of Johnnie Glynn was held, this morning, in St. Joseph's Church, with requiem high mass, Rev. Father McClancy officiating. There was a very large attendance. The pupils of the parochial school attended in a body, as did the altar boys and the members of St. Aloysius. The pall bearers were: Al. Donovan, Ambrose O'Neill, Daniel Driscoll, Joseph Dougherty, George Tierney and William Kulblein.

There were many floral tributes, among them gates ajar from the school; roses from the choir girls; pillow from sisters and flowers from Mrs. O'Brien, Mrs. Gunther, Mrs. Vail, Garry McDermott, Rose and Mary Sullivan, Miss Edwards, Miss Reagan and Miss Bernhardt.

The flower bearers were Davie O'Brien, John Agnew, James Nearn, Ed. Leonard, Will Costello and John Burke.

Arbor Day Exercises in the Public Schools.

Arbor Day exercises were held in the public schools, to-day. In some of the schools very elaborate programmes were gone through with. The decorations in most of the rooms were of a patriotic order, the red, white and blue being very much in evidence.

Stomach Trouble

Stomach trouble is the common name applied to a derangement of the system which is keenly felt but vaguely understood. It may mean inability to retain food or to digest it. It may mean nausea, pain after eating, fullness, inordinate craving for food, or entire lack of appetite. Whatever it means, there's trouble, and it's with the stomach. If you have stomach trouble, you will be interested in this letter from a man who had it and was cured by

Ayer's Sarsaparilla

"For nine years I suffered from stomach trouble. I tried the aid of the best doctors of Philadelphia and Pittsburg, and spent large sums of money, all in vain. One day while waiting a train in Bellaire, O., I picked up a paper with a notice of Ayer's Sarsaparilla. I got one bottle to try it. It did me so much good that I purchased five more bottles. I took four of them and gained in flesh, my appetite improved, and now I can eat anything. My stomach is all right, thanks to the use of Ayer's Sarsaparilla."—CALVIN M. STEVENS, Uniontown, Pa.

OBITUARY.

Ira G. Seeley.

Ira M. Corwin received a telegram, to day, announcing the sudden death in New York, at 1 o'clock, this morning, of Ira G. Seeley, formerly of this city.

He was a native of Chester and was, about 1870, in the boot and shoe business in this city in partnership with Henry L. Adams, the firm being Duryea, Seeley & Co. He then went to New York and for many years was a salesman with Tefft, Weller & Co.

He married Eugenia, daughter of the late James M. Matthews, who survives him. He was an honorary member of Excelsior Hook and Ladder Company.

Mr. Seeley's health began to fail several years ago and last summer he spent several months in this city in the hope that the change would benefit him.

The funeral arrangements have not yet been made.

Charles McMonagle.

Charles McMonagle died at his home in New York, Thursday, the 5th instant, aged seventy-six years, after about a year's illness. He was an uncle of D. C. McMonagle, of this city, and was his father's youngest brother and the last of his generation.

He was born near Scotchtown in this county and went to New York when a young man, before the days of steam, and when the passage was made by sloop from Newburgh. He was in the dry goods business ever since he was a young man, for years being the "Co." of S. B. Chittenden & Co. He went from this firm to A. T. Stewart & Co., and later was with H. B. Claflin & Co., until illness made him retire from actual business. He was a man of high character and of superior business qualities.

Mr. McMonagle was married and had a family of three children. His wife died last summer, and the only surviving member of his family is a daughter, who is the wife of John Davis Newman, of New York. Charles and Hance, two sons, died after reaching manhood. Mr. McMonagle's death leaves D. C. McMonagle, of this city, the oldest of the name.

The funeral notice appears elsewhere.

Additional Particulars About the Camp Black Excursion.

The Erie announces that trains on the Long Island R. R. will run hourly from Camp Black to Long Island City on Sunday, thus giving every one an opportunity to leave the camp at any hour desired, and they can spend the remainder of their time in New York, Brooklyn or Jersey City. The last train, however, leaves the camp at 6 p. m., and connects at Long Island City with a special boat which does not land at New York, but transfers the excursionists direct to the Erie depot at Jersey City.

The special train arrives at Jersey City at 7:05 a. m., and leaves there returning home at 8 p. m. Tickets are good only going and returning on the special train over the Erie, but are good on any train that day over the Long Island R. R. d2t

A FRENCH LINER CAPTURED.

Tried to Run the Blockade, and When Warned, Resumed the Attempt—Sent to Key West—Delicate International Questions Involved.

BY ASSOCIATED PRESS.

KEY WEST, May 6.—The big French liner Lafayette, with a full complement of passengers and a general cargo, from Corunna, Spain, was captured by the Annapolis, while attempting to run the blockade, shortly before sundown, last night.

The Lafayette was heading directly into Havana, and was captured after an exciting chase. After being boarded once, and warned by an officer of the Annapolis, she attempted again to go into Havana harbor. This time the Wilmington, Newport and Merrill participated in the capture.

After an examination of the Frenchman's papers had been made she was sent to Key West. Very delicate international questions are thought to be involved, which were the subject of a long consultation, which finally resulted in sending her to Key West.

The fact that she left a Spanish port after the declaration of war seems to be warrant for holding her. The very large number of male passengers aboard led to the suspicion that she carried troops for Havana.

It is reported that the Lafayette, in addition to being a regular French mail steamer, is a French naval reserve vessel, mounting guns and carrying a crew sufficient to make her ready for active service at short notice.

This, it is said, adds considerably to the gravity of the international aspect of the case.

BY ASSOCIATED PRESS.

LONDON, May 6.—Certain of the powers have again made overtures to Great Britain looking to intervention in the war between Spain and the United States, but Great Britain has refused to take a part in such a movement. British Admiralty Said to Have Been Advised to Remove British Subjects.

BY ASSOCIATED PRESS.

LONDON, May 6.—A story is published here to the effect that the British Admiralty has been advised by the Washington Naval Strategy Board to remove all British subjects from the Canary Islands, and it is added that this accounts for the British second class cruiser Charybdis being ordered to La Palmas, and leads to the conclusion that Rear Admiral Sampson may attack the Canary Islands.

Great Damage Done in Arkansas—The River Twenty five Miles Wide and Still Rising.

The Arkansas river is twenty-five miles wide in places, and is now four inches higher than it was last night. All last night boats were busy in the bottoms rescuing the inhabitants. Thousands were rescued, and it is feared that many have been drowned. Two houses were seen going down the river, but boatmen could not reach them.

THE BOYS AT HEMPSTEAD.

Extracts from Private Letters Tell of Experiences of Camp Life—No Luxuries and Few Comforts, But There Is No Complaining.

Sergeant Nickinson, the ARGUS's correspondent at Camp Black, is so busily engaged with his military duties that he could not write his usual letter, but we have been handed a letter from a member of the company to a friend in this city, from which we make the following interesting extracts:

It has been very cold, cloudy and rainy ever since we got here and at first was anything but comfortable, but we are commencing to get used to it and conditions are getting considerably better. We are getting "hardened" and no doubt before the week is out we will hardly mind it, if half of us are not sick. I am standing it all right so far and no doubt will be able to stick it out.

I was over to Hempstead, about two and one-half miles from camp, Tuesday afternoon, and it was lucky I got away then for now no one is permitted to leave or enter the camp.

Tuesday night a lot of the 65th Regiment of Buffalo went to a neighboring farm and stole a cow and dressed it, and now sixteen of them are in jail at Hempstead. Just now two peddlers went by the end of the street with bananas and beer and before you could tell it both of them were put out of business, everyone helping himself and forgetting to pay for it.

Matters here are assuming a warlike aspect, for besides allowing no one to enter or leave the camp, the guards all have their rifles loaded with ball cartridges and as a consequence six men were in the hospital Wednesday morning, having been shot in trying to run the guards.

The 69th Regiment of New York is the toughest aggregation in camp, and especially as far as some of their new recruits are concerned, they coming mostly from the Bowery, and we have to keep our eyes open and are prepared to give them a warm reception at any time they want to try any funny work.

Joe Jones is in camp as a drummer in the drum corps of the 65th Regiment of Buffalo, but I have been unable to see him as yet, that regiment being camped about three-quarters of a mile from us.

Another member of the company writes:

We are not faring very sumptuously, but our food is so much better and more abundant than it was at first that we are not kicking. Tuesday I had two sandwiches, some canned roast beef and a tin cup of pea soup; no tea nor coffee; in fact we were lucky to get plain water.

We sleep fourteen men in a tent, on the ground, with a little rye straw under us, and our packs for pillows. The only thing we take off when we go to bed is our shoes. Our hats we pull down over our ears as night-caps.

The scarcity of water is one of the worst features of life here. It takes an hour to get a drink.

The Campbell Track Not to Be Leased.

The leasing of the Campbell track to W. A. Lawrence, of Chester, seems to have fallen through. It was understood that it was intended to allow Ira Ryerson to drive and train horses on the track, which would have subjected the track to a fine by the National Association. The overtures from Mr. Lawrence seem to be at an end since the local track owners decided that Mr. Ryerson could not use the track until re-instated.

THREE MEN KILLED.

Fatal Accident In the Halstead Mine at Duryea, Pa.

WILKESBARRE, Pa., May 6.—The Halstead mine of the Delaware, Lackawanna and Western Railroad company at Duryea was the scene of an accident last night which cost three men their lives. The names of the victims are:

John Monohan, Stephen Jenkins and John Titus.

The three men were engaged in repairing the lining of the shaft which had been damaged by the cavein last week. Some heavy timbers were being lowered into the shaft, when the rope which was attached to them slipped off, and the timbers struck the platform upon which the three workmen were standing with great force, demolishing it and precipitating the men to the bottom of the shaft, a distance of 300 feet. The bodies were horribly mangled.

Scorching is Business.

The bicycler is not the only man who scorches. There are business-scorchers, professional-scorchers, farmer-scorchers, mechanic-scorchers and laborer-scorchers. The man who overworks, who scorches, no matter what his occupation, and at the same time neglects his health, will sooner or later pay a penalty in sickness and possibly premature death.

If a man will always watch his health and correct minor irregularities by a resort to the right remedy, he may do a reasonable amount of scorching without serious results. Nearly all serious maladies are the result of imperfect nutrition. Imperfect nutrition is just another name for starvation. A man may eat voraciously and still starve. He may put on an eighth of a ton of sickly flabby flesh and have a big, corpulent stomach, and still be starving. He may scorch until he goes to the opposite extreme and gets thin as a rail, and he is still starving. The trouble lies in the fact that no matter how much food is taken it is not properly assimilated. The blood does not receive the life-giving elements of the food that build firm, healthy flesh, solid muscle and vibrant nerve fibers. Dr. Pierce's Golden Medical Discovery makes the assimilation perfect. It makes solid, healthy flesh, without raising the weight above Nature's normal. At all medicine stores.

E. M. Seavolt, of No. 427 Sandusky St., Mount Vernon, Knox Co., Ohio, writes: "I can heartily recommend your 'Golden Medical Discovery' to any one who is troubled with indigestion and torpid liver; I was that bad it was about chronic with me. All the other medicines could give me no relief; but at last, what came to my relief was that wonderful medicine the 'Golden Medical Discovery.' I could scarcely eat anything—it would put me in terrible distress in my stomach, I had a dull aching and grinding pain in my stomach with pain in my right side and back, and headache, bad taste in my mouth; at night I was feverish and the soles of my feet burned.

I took four bottles of the 'Discovery' and two vials of the 'Pellets.' I am well and hearty and can eat as well as any body can,—thanks to your 'Discovery.'"

Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nerve and Liver Pills and Nervine. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I keep them at hand and a single dose dispels any old symptoms."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address,

Klondike Telegraph Line Which Was Wrecked by the Atlantic Cable.

Long ago—in 1863-64—there was no cable between Europe and America. Transatlantic news—even during the exciting episodes of the civil war—was always about a fortnight old, says the London Mail. The attempt to make a cable connection had ended disastrously, and in this juncture of affairs was organized a gigantic enterprise, looking to the connection of the United States with Europe via Klondike and Behring sea. Most electricians and telegraph experts had made up their minds that 40 miles—which was the distance across the strait—represented the longest a submarine cable could be successfully worked.

A company was formed, and what was known in those days as Russian extension stock went off at a premium of 60 per cent. In 1865 the line between New Westminster and the Yukon river was surveyed, found to be practicable, and traversed completely the present Klondike region.

The line was expected to be finished in 1867. Even the tariff for messages was fixed at £5 ($25) per message. The receipts were estimated to yield about $9,000,000 per annum. The line was actually constructed from New Westminster along the present route of the Canadian Pacific railway to Ashcroft, where it was continued north toward Behring sea to Fort Stager, 300 or 400 miles beyond Quesnelle. This line is at this present moment in operation in a portion of the Cariboo country.

Then, in the midst of the whole business, after three years of hard work came like a thunderclap the news that the Atlantic cable was a success. Three million dollars had been expended, yet the next day Russian extension stock was not worth the printer's ink on its surface.

MOUNT VERNON'S GUARD.

Little Old Colored Man Hasn't Missed a Day in Years.

Edward Parker, the little old colored man who occupies the sentry box at the tomb of Washington at Mount Vernon, lives in Washington, says the Washington Star. That is, his family lives here, and he comes over by special permit of the organization which has control of the old home of the first president of the United States.

For years the tomb of Washington has been constantly before this old colored man's vision. He has never missed a day from that dingy sentry box since Mount Vernon passed into the charge of the ladies, and before that, dating from 1841, he had lived on the place. He was a slave of John Washington, and is the last of the old servants now living.

Every other Saturday Parker comes over to Washington, always carrying with him an old-fashioned carpet bag, so common in the days of reconstruction. The following Monday morning he may always be seen a half hour at least before the first train starts for Mount Vernon waiting around the corner of Pennsylvania avenue and Thirteenth street. He has never missed the first train since the electric cars began running to Mount Vernon. Before that the first boat to Mount Vernon, on alternating Monday mornings, always found him a passenger.

Parker is, indeed a character. He assisted in burying the last person consigned to the vault in the Washington tomb. After that the key to the vault was thrown into the Potomac. This was in the early 50's.

ONE MAN'S CHURCH.

Colored Zealot Building a House of Worship Entirely Unaided.

A Georgia colored man, Andrew Bonner by name, is manifesting his religious enthusiasm in a substantial though unusual way. Bonner is a simple-minded negro, filled to overflowing with what his admiring wife terms "de ol' time religion." He resides with her in College Park, a village a few miles from Atlanta. His ambition for years has been to build a church for the benefit of some of his own race, the material used to be procured with his own earnings and no workman to assist him in the rearing of the edifice, says the Chicago Chronicle.

With utter disregard of legal measures, Andrew selected two years ago a site for the church of his dreams, which he expects to be a monument to his memory long after he has returned to dust. The fact that he does not own the ground has never disturbed him. When far-sighted white friends urged him to wait until the ground could be bought for the purpose he paid no heed to the proposition, but kept to his original purpose. Every spare penny was spent by him for lumber and nails. The work has necessarily been slow, but now, after 21 months of patient labor, Andrew gazes with pride upon the building, which is almost covered.

The old man is said to have sometimes denied his family bread that he might save money for this pet project.

The First Water Plant.

The Quakertown (Pa.) Times awards to Bethlehem the distinction of having erected the first waterworks in the United States. Near the banks of the Monocacy creek (the Indian name for creek of many bends), it says, there is a never-failing spring of pure cold water, which has formed the supply of Bethlehem from its founding up to the present time. In the spring of 1754 Hans Christopher Christiansen began the erection of the first waterworks in the old mill. The water was forced through wooden pipes up the hill into a wooden reservoir, situated where the Moravian church now stands.

Manitoba Soil.

In Manitoba you can turn a furrow many miles long and not encounter a stone as large as your fist. The earth, for a distance down from three to five feet is a rich, black loam, made by centuries and centuries of decaying vegetation.

Morton L. Hill, of Lebanon, Ind., says: "My wife had inflammatory rheumatism in every muscle and joint, her suffering was terrible and her body and face were swollen beyond recognition; had been in bed for six weeks and had eight physicians but received no benefit until she tried the Mystic Cure for Rheumatism. It gave immediate relief and she was able to walk about in three days. I am sure it saved her life." Sold by J. E. Mills, No. 2 Empire Block, Druggist, Middletown.

Price 25c. and 50c. Trial size free. At all druggists.

Calls It the Best.

PORT JERVIS, N. Y., May 3, 1898.—Mrs. J. E. Taylor, of this place, is among those who are praising the well known and wonderfully successful medicine, Hood's Sarsaparilla. She says she has taken it for headache and loss of appetite and she calls it the best medicine to create an appetite that she can find. It has relieved her husband of dyspepsia.

REGAINED HEALTH.

Gratifying Letters to Mrs. Pinkham From Happy Women.

"I Owe You My Life."

Mrs. E. WOOLHISER,
Mills, Neb., writes:

"DEAR MRS. PINKHAM:—I owe my life to your Vegetable Compound. The doctors said I had consumption and nothing could be done for me. My menstruation had stopped and they said my blood was turning to water. I had several doctors. They all said I could not live. I began the use of Lydia E. Pinkham's Vegetable Compound, and it helped me right away; menses returned and I have gained in weight. I have better health than I have had for years. It is wonderful what your Compound has done for me."

"I Feel Like a New Person."

Mrs. GEO. LEACH,
1609 Belle St., Alton, Ill., writes:

"Before I began to take your Vegetable Compound I was a great sufferer from womb trouble. Menses would appear two and three times in a month, causing me to be so weak I could not stand. I could neither sleep nor eat, and looked so badly my friends hardly knew me.

"I took doctor's medicine but did not derive much benefit from it. My druggist gave me one of your little books, and after reading it I decided to try Lydia E. Pinkham's Vegetable Compound. I feel like a new person. I would not give your Compound for all the doctors' medicine in the world. I can not praise it enough."

Announcement Extraordinary.

A BIG CLOSING OUT SALE.

GOODS TO GO AT COST.

Having Decided to Engage in Other Business, we propose to close out our entire stock at cost --- for cash only --- and we shall do it in this way.

The stock is an immense one, and it will require some time to dispose of it, so we shall begin the sale on

Saturday Morning, May 7, and Shall Continue It Till About March 1st, '99

the time our store lease expires. During the year, while we are disposing of our heavier lines, we shall continue to add a few goods in Gents' Furnishings, just to keep things lively—but shall hand everything out at cost. This, of course, means a year's business for fun, but in the usual course of trade we must expect to make great sacrifices, especially in closing up this business. And bear this in mind, we have stocked up full in every line this spring, in fact we have never shown a more complete or better selected stock than we now have on our counters. But everything goes, and from the beginning of this great sale all broken lots will go regardless of cost. For instance—In the Clothing Line we shall cut terribly into prices on all odds and ends. On many goods we have cut prices right in two, like this :

SUITS THAT WERE RETAILED FOR $12 AND $15 WILL, AT THIS SALE, GO FOR $6 AND $7.50!

and even greater sacrifices will be made on small sizes in CHILDREN'S SUITS. The goods must go, and we believe that our Cut Prices will do the business. To specify what our stock consists of, we would say it comprises

Custom and Ready-Made Clothing, Hats, Caps, Gents' Furnishings, Trunks, Traveling Bags, Rubber Goods, Horse Blankets, Robes

etc. This is no fake sale—We have made a plain statement, and shall do just as we advertise. It will pay to buy these goods, even though they are not needed for immediate use.

GEO. W. YOUNG,

Clothier, Hatter and Merchant Tailor, Nos. 16-18 East Main Street, Middletown.
